TK Soluzioni Portfolio

Wed, 03/31/2010 - 13:55 — admin

TK Soluzioni and its offer

The central chain represents the core of TK Soluzioni's offer for Enterprise Publishing, contents management and approval processes. The offer further includes Business Intelligence and Business Process Outsourcing for supporting strategic decisions

□

Vieni a trovarci all'IDC Banking Forum 2010

Thu, 10/07/2010 - 14:46 — admin

IDC Italia ha scelto TK Soluzioni come partner tecnologico per lo sviluppo della propria app per iPad e iPhone.

Il 23 novembre saremo presenti al IDC Banking Forum 2010: l'evento di riferimento per professionisti dell'ICT e per i manager del mondo finanziario.

Event at Villa Panza - March 25 2010

Fri, 03/05/2010 - 17:34 — admin

A mine of value under a mountain of paper

One information, all means of communication!

In the charming setting of Villa Panza Menafoglio, TK Soluzioni invites you to a journey through art and innovation, to get the maximum efficiency in the processes of communication and content creation.

As the colors of the neon installations by Dan Flavin cancel the primeval shadows, composing new volumes and giving birth to tridimensional paintings into which to move and breathe, the solutions of TK aspire to eliminate no-value added activities in the communication process, freeing resources so that they can be dedicated exclusively to features that are creative and of impact in marketing messages.

We have therefore chosen to combine the presentation of the company and our innovative solutions, a guided tour of the Villa and of the Panza collection, to make this event a unique experience.

At the conclusion, a pleasant appetizer in the elegant empire-style dining hall will allow us to greet you and to elaborate on the topics of the day.
